

WE ARE THE MANY. THEY ARE THE FEW,  
**WE ARE 8 BILLION**  
UNITED

## THE GENEVA PROJECT

# WE DECLARE OUR INDEPENDENCE

The Geneva Project is the start of the global movement of unity. We, The People Of The World, will no longer tolerate being ruled by unelected global officials. The time has come to break free from the chains that restrain us - and begin to create a society that serves the people.

The Geneva Project is an energetic shift in powers and actualized turning point in the trajectory of the world. We gather together to proclaim our independence (as both individuals and countries) and begin building another possibility for the future - a future that is based on the values of the people along with the intrinsic positivity and love of the human spirit.

The Geneva Project is a reawakening of the strength that the 8 billion citizens of the world have held all along.
